

RACE-RITE CRIMP-ON HOSE ENDS

Fragola's New "Double-Swivel" Race-Rite, Crimp-on Hose Ends have a Hard Coat Black finish. They feature an enlarged I.D. for improved flow rates and utilize a unique thread-on collar. The collar threads onto the Hose End Body and ensures a concentric crimp every time. And because they are a "Double-Swivel" design, there is no need worry about clocking them into the proper orientation before crimping. Use with our Race-Rite & Race-Rite Pro Hose.

RACE-RITE DIRECT FIT CRIMP-ON HOSE ENDS

Race-Rite Direct Fit Crimp-On Hose Ends come in handy when plumbing jobs in tight spaces. They incorporate a "swivel-style" O-ring Boss fitting into their design, which helps shave valuable inches in tight applications.

RaceRite Pro Hose

- Engineered & tested to be the ideal plumbing solution in all Dry Sump System applications
- Convuluted exterior with added Spiral Wire increases hoop strength to prevent hose sucking shut under high vacuum & allows for an even tighter bend radius
- 50% lighter than our 8400 Series Black Nylon Race Hose.
- Features a true to size I.D. for improved flow rate.
- Works with all fluids including Ethanol Type Fuels, ATF, Coolant, & Oils
- Use with our Race-Rite Crimp-on Hose Ends
- Operating Range -65°-500° F
